Hiki Academy provides a spacious and comfortable learning environment, where faculty and staff closely support students for their new life in Japan.

Hiki Academy's experienced teachers offer Japanese language classes in the Academy's spacious and comfortable classrooms. Hiki Academy has facilitated an environment where students can focus on their education without worries as its faculty and staff provide support to students in finding a residence, on their language studies, and their everyday life in Japan. In addition, the school also thoroughly advises students on applying for part-time jobs and their applications to university programs.

Educational Objectives

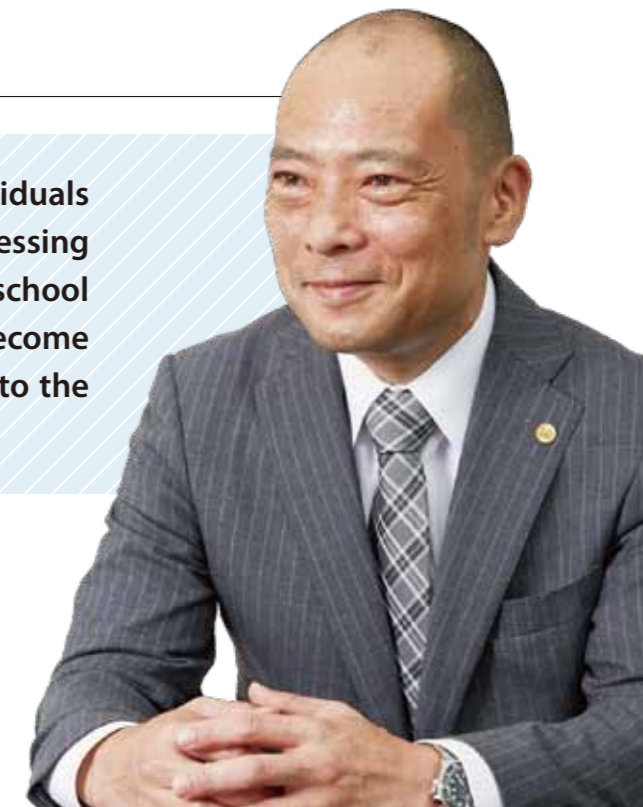

1. Cultivating individuals who are capable of advancing their career and life goals through a deep study and understanding of the Japanese language and Japanese culture.
2. Cultivating individuals who, through the knowledge they have obtained during their higher education in Japan, are able to contribute to business relations between their own countries and Japan by working at a company in Japan, in a Japanese company in their own country, or even starting up their own company in their home countries.
3. Cultivating individuals who are able to respect the social conventions of Japanese society by familiarizing them with these rules and conventions as a part of the disciplined Japanese school life that we provide.

Educational Philosophy

Through the cultivation of highly qualified individuals capable of flourishing in a global society and possessing a positive, healthy attitude towards others, our school provides complete support for our students to become the international citizens who greatly contribute to the world.

Carriculum Details

Substantial Provisions for the JLPT and EJU

We prepare students to pass the N3, N2, and N1 levels of the JLPT.

We also prepare to achieve at least a score of 260 on the EJU, the passing line for the average Japanese University.

School Fair at Hiki Academy

Hiki Academy invites teachers and officials from vocational schools, universities, and graduate school introduce their various programs. During these consultations, students have the opportunity to learn about individual university requiremants, test scores, the courses offered, and post-graduation employment opportunities.

Special Lectures on University Entrance Exams

The school provides special lectures on the basic subjects of entance examinations, including English, mathematics, chemistry, physics and biology. (these lectures are provided in an intensive format during the spring and the summer holidays.)

Support for Students Applying to Universities

Students regularly have person-to-person consultations with teachers and staff. The school also helps students for their official university interviews during entrance exams by conducting numerous mock interviews.

Consultations on Furthering Education

Students are also directed to participate in information sessions conducted in Ikebukuro, and Shibuya. At these sessions, students learn about each school's eligibility requirements, details about entance exams, the courses schools offer, and costs.

Japanese Cultural Experience Classes

Students take classes to experience Japanese culture firsthand, with lessons in tea ceremony, calligraphy, and flower arrangement. Each semester, students are taken to historical Japanese sites to further understanding of Japanese culture and history.

JLPT

The Japanese Language Proficiency Test in conducted for the purpose of measuring the Japanese language ability of individuals whose native language is not Japanese. (Held twice a year: July, December.)

EJU

The Examination for Japanese University Admission for International Students is a test designed for foreign nationals who hope to matriculate at Japanese universities. The test evaluates a student's Japanese language ability and basic academic skills that are needed for foreigners intending to study at a Japanese university. (Held twice a year: June, November.)
